ASTUN-FLEX 383

These energy absorbers with elastic polyester webbing (45mm) have been designed for comfort and increased equipment resistance, thanks to their elastic and retractable function.

Designed to withstand falls. Reduces fall impact below 6 kN.

Standard	EN 355, EN 362, VG11.063
Longitude (m)	140-180 cm
Maximum load	140 Kg
Weight (kg)	-
Diameter (mm)	11 mm
Carabiner	995 (18mm) + 2x 984 (60mm)
Static resistance	25 kN
Stopping distance	1 m
Lifetime (years)	10 of use + 2 of storage

Materials

Energy absorber	Polyester
Carabiner	Aluminium
