

## ASTUN 150 (361)

- Energy absorber with semi-static rope.
- Designed to withstand falls.
- Reduces the impact of falling below 6 kN.
- Rope ends sewn and covered with polyethylene material, abrasion resistant thimbles.

Norm	EN355
Length	150 cm
Weight	450 g
Diameter	11 mm
Static resistance	25 kN

Max. Load 140 Kg

Stopping distance	1 m
-------------------	-----

### Materials

Rope	Polyamide
Absorber	Polyester
